

the hospital authorities. It was found that these blood sets are not being used presently for blood collecting purposes due to better technology now available. These reported sets were used in the hospital for purposes other than blood transfusion.

#### **Per Capita Income**

55. CHAUDHARY RAMACHANDRA BENDA : Will the PRIME MINISTER be pleased to state:

- (a) the details of rural-urban per capita Income ratio before the implementation of First Five Year Plan and at the end of the Eighth Five Year Plan period;
- (b) whether the proportional rural income has come down during the Eighth Five Year Plan; and
- (c) the impact thereof on poor persons, specially in rural areas?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING AND PROGRAMME IMPLEMENTATION SHRIMATI RATNAMALA D. SAVANOOR) : (a) and (b) The estimates of income by rural and urban areas are not available on a regular basis. According to the Central Statistical organisation (CSO) estimates, at currently prices, the ratio of per capita net Domestic Product in urban areas and rural areas were 2.45 in 1970-71 and 2.23 in 1980-81. However, the information on per capita consumption expenditure in rural and urban areas is available on a fairly regular basis from the data generated by the Survey on Consumer Expenditure conducted by the National Sample Survey Organisation (NSSO). According to this, the ratio of per capita consumption in urban and rural areas in 1955-56 was 1.43. The latest estimates are available for the year 1993-94, according to which the ratio of per capita consumption in urban to rural areas is worked out as 1.63.

(c) The estimates of poverty depends mainly on the per capita real consumption and its distribution among different expenditure groups of the population. The Planning Commission estimates poverty on the basis of quinquennial Survey on Consumer Expenditure conducted by NSSO. Comparable estimates show a decline in the incidence of poverty from 56.44 per cent in 1973-74 to 37.27 per cent in 1993-94 in rural areas, 49.01 per cent to 32.36 per cent in urban areas and 54.88 to 35.97 per cent for the country as a whole, during the corresponding period.
